 _____                              _____
| ADVISORY:   4045 |    DATABASE ADMINISTRATION   | DATE: 12/21/81 |
|_____|                              |_____|
```

```
 _____
| TITLE:    IDMS Subschema Reports                                      |
|                                                                       |
|_____|
```

```
 _____
| Purpose |
|_____|
```
To announce the availability of IDMS subschema reports.

```
 _____
| Utility IDMSRPTS.   |
|_____|
```
The IDMSRPTS utility is available to all ISD users and all subdivisions
of ISD to generate batch reports about IDMS subschemas.

The catalogued procedure "IDMSRPTS" is supplied by ISD and must be used
to invoke IDMSRPTS.

For Example:

```
  //P076A001 EXEC PROC=IDMSRPTS
  //SYSIN DD *
  SCHEMA=S079B002 SUBSCHEMA=S123A456 SUBREC SUBSET.
  /*
```

```
 _____
| DDR Report Number 729  |
|_____|
```
ISD supplies DDR Report Number 729. It lists all IDMS areas available
to a subschema and the privacy locks for each usage-mode. You must
supply a subschema name for KEY SS-NAM-026.

For Example:

```
  //U123A456 EXEC PROC=DDR
  //SYSIN DD *
   REPORT=729
   KEY SS-NAM-026 'S123A456'
  /*
```

It reports all subschemas with the supplied subschema name, regardless
of schema name and schema version number. Please be sure that you
reference the highest schema version number and the correct schema name.

        This document is the current version of Advisory 2.15.7005
